

Efficient, High-performing Storage as a Service for Public Sector

Pure as-a-Service™

Provides a Single Subscription for On-premises and Public Cloud

Central, local governments and government bodies are under immense pressure to deliver on their missions—regardless of today's increasingly challenging environment. Tax revenues are down, remote working expenses are up, and budgets are tight.

A Reliable, Scalable Infrastructure With Lightning-Fast Connectivity Is More Critical Than Ever

Demand for citizen services is increasing.

More public sector employees are working remotely.

24x7 uptime and optimum performance are non-negotiable.

Public Sector organisations require a Modern Data Experience™ that delivers the cost-efficiency and flexibility they need as their IT requirements grow and budgets shrink.

Pure as-a-Service Offers:

100% OPEX*-based, hybrid-cloud storage as a service for block, file, and object storage.

A single subscription and single set of services—no hardware to buy and no hidden costs.

Pay-per-use pricing—you only pay for what you use.

Reserved capacity at a discounted rate and on-demand capacity at a standard rate.

Non-disruptive enterprise-grade storage.

A fully scalable and elastic platform.

Enterprise-grade Performance and Features

99.9999%

Proven 99.9999% storage availability**
SLA guarantees no planned downtime.

Government bodies often operate with a lean staff model and need solutions that require less management and maintenance and offer a faster return on investment.

Pure as-a-Service makes it easy for you to:

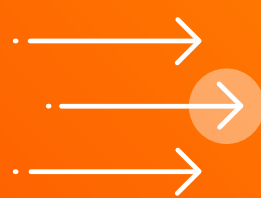

- ✓ Get in and ramp up (start small and grow)
- ✓ Optimise costs with no long-term commitments
- ✓ Embrace hybrid cloud with Pure Cloud Block Store™

Mission-critical work demands powerful solutions that are easy to upgrade without disruption or downtime.

Pure as-a-Service is always Evergreen™, offering:

- ✓ Rapid innovation without forklift upgrades
- ✓ No data migrations or costly rebuys
- ✓ White-glove premium support

**Your public sector organisation's mission never stops.
You need reliable, efficient, and agile solutions that can keep pace.**
