

# BRIAN SCHWARZ

## VICE PRESIDENT, PRODUCT MANAGEMENT

Brian Schwarz is Vice President of Product Management at Pure Storage, focused on the FlashBlade and ObjectEngine product lines.

He joined Pure in 2014 as Director of Product Management, responsible for FlashArray manageability and Pure1, the Pure proactive support and customer SaaS application.

Prior to Pure, Brian spent 6 years on the Unified Computing (UCS) team at Cisco, having joined via the acquisition of Nuova Systems. Brian was the first Product Manager for UCS Manager and over his tenure expanded his role to cover all UCS software.

Earlier experience includes management and technical positions at Veritas, Exodus Communications, Teradyne, and Microsoft Corporation.

Brian has a Bachelor of Science in computer engineering from Rensselaer Polytechnic Institute and a Master of Business Administration from the University of Washington.
