- Expert assistance with solution development.

Flexibility

- Work with Pure Professional Services team to implement according to your schedule.

Outcomes

- Enterprise class-storage solutions ready for provisioning.
- Training and enablement services.

DATA SHEET

Automation Advisory and Application Services

Expert assistance, design, and integration of your application services with Pure Storage® solutions.

Pure Storage Professional Services provides a comprehensive range of integration and configuration automation capabilities.

The End-user Experience

Pure Services helps you realize the value of your IT investments. Our Automation Advisory and Integration services can help you reduce time spent on repetitive manual tasks. These services can also ensure that security and other processes are enforced across geographies and teams. They also provide for API interfaces for your data applications. Our goal is to uncomplicate how your IT team works to manage your Pure data services.

These services provide the following outcomes:

- Reduced time required for tasks from hours to minutes
- Better compliance with security processes across teams and geographies
- Optimized performance for all of your data applications
- IT team members with more time to work on higher value projects

Automation Advisory and Application Services Work Products

For many of our integration services, Pure Professional services can leverage a library of existing scripts. We also help you integrate Pure Storage arrays into their existing scripts.

Automation Advisory Workshop: The Automation Advisory Service from Pure Storage provides you with guidance on for implementing automation frameworks within your storage environment.

EPIC Integration: Our EPIC Integration service simplifies the operation of provisioning and data protection tasks.

Microsoft SQL Integration Service: The Microsoft SQL integration service simplifies data tasks and protection automated cloning, replication, and disaster recovery processes into a customer environment.

Oracle Integration Service: Our Oracle Integration service simplifies provisioning and data protection task operations.

SAP-HANA Integration Service: SAP-HANA Integration services help you throughout your adoption of related technologies.

ServiceNow Integration Service: The ServiceNow Integration service simplifies IT operations management by leveraging ServiceNow's Discovery and Service.

VMware Advisory Workshop: This service helps with the VMware planning and integration with the storage environment.
