DATA SHEET

FlashStack Installation Services

Get ahead with FlashStack installation and integration services.

FlashStack™, developed jointly between Pure Storage® and Cisco, brings organizations an uncomplicated hybrid cloud infrastructure that leverages artificial intelligence and automation to simplify tasks and free up valuable resources. FlashStack allows organizations to easily and quickly adapt to changing business requirements by scaling up and down as needed. It also provides data protection and a fast restore capability so your data is always protected. Installation services from Pure Services gets your FlashStack environment up and running quickly according to our recommended practices.

The End-user Experience

Pure Services helps you realize the value of your IT investments. The FlashStack Installation Service is designed for organizations that want to quickly activate the full potential of their FlashStack systems. Our goal is to uncomplicate how your IT team works to manage your Pure data services. The service provides the following outcomes:

- **Pre-implementation survey**: We will conduct a discovery session to review your environment, confirm configuration details, and schedule the install.

- **Hardware installation**: A Pure implementation engineer will unpack, rack, cable, and power up your new converged infrastructure.

- **FlashStack configuration**: The team will configure each of the individual components according to the FlashStack Deployment Guide

- **Solution and network testing**: The team will test the entire FlashStack solution to ensure connectivity between the VMware hosts and their volumes living on the Pure Storage FlashArray™.

- **Knowledge transfer**: After installation, the Pure implementation engineer will work with your team to review the configuration from end-to-end, including VMware host instances on the Cisco UCS server, LAN, and SAN network.

Highlights

- End-to-end comprehensive installation and configuration
- Proactive 24x7 CloudAssist support
- Pure1 ® continuous monitoring and assistance

Flexibility

- Work with Pure Professional Service team to implement according to your schedule

Outcomes

- Fully integrated converged infrastructure solution
- Knowledge transfer for rapid adoption and operation
- Pure1 support activated and monitoring
