FlashArray installation to support a Microsoft Nexus environment

Microsoft Azure Operator Nexus is a carrier-grade and hybrid platform, built to empower telecom operators to modernize and transform their networks.

Pure Storage is able to plan and execute the rapid installation of an End User's FlashArray™ to ensure it supports a Nexus environment. The installation follows the proven Flash Installation service delivery methodology, whilst taking into account any specific Nexus environmental requirements.

The End User Experience

Pure Services can help you realize the value of your IT investments. As an integral part of the Pure Customer Experience CX team, we engage with organizations to evaluate, activate, and innovate their IT solutions.

The FlashArray Installation Service for Microsoft Azure for Operators (Nexus) is designed for organizations that wish to quickly activate the full potential of FlashArray, for use within a Nexus environment.
