

DATA SHEET

Pure Protect Advisory Service

Accelerate your adoption of Pure Protect and time to value

Highlights

- Pure Protect Advisory Service

Flexibility

- Work with Pure Services to implement according to your schedule

Outcomes

- Guided conversation providing insight and best practices for using Pure Protect

Pure Protect™ is DRaaS (Disaster Recovery-as-a-Service) from Pure Storage and enables customers to protect Applications on VMware, replicate to AWS and perform on-demand Failovers and Failbacks.

Many DR solutions focus on mission critical apps that cover the top 10-20% of the data center and solve DR challenges for a subset of the environment. With the data center consolidations and hybrid cloud approach, there's a need for a DR solution that covers the breadth of the data center infrastructure, rather than a specific set of applications.

Pure Storage offers the Pure Protect Advisory service as an enablement solution to assist End Users with adoption of the Product and accelerate the time to value and return on investment.

Safeguard Virtual Workloads on AWS

Pure Protect //DRaaS simplifies recovery from disasters so that you can get your business back online quickly-without having costly infrastructure, and complex configurations. Pure Protect //DRaaS enables you to fully orchestrate the failover of applications and business systems, from on-premises VMware vSphere, to your organization's Amazon Web Services.

Pure Protect //DRaaS provides:

- On-Demand Disaster Recovery that's right sized for your business.
- Provisioning of your landing zone and recovery of your virtual machines are fully orchestrated.
- Disaster recovery testing in an isolated environment allows you to find blind spots without risking your production systems.
- Ensures VM point-in-time recovery, enabling clean data restoration after ransomware attacks and other disasters-allowing faster business recovery.

The End User Experience

Pure Services can help you realize the value of your IT investments. As an integral part of the Pure Customer Experience CX team, we engage with organizations to evaluate, activate, and innovate their IT solutions.

How to Order

For ordering information contact your local Pure sales representative or visit www.purestorage.com.
