- Receive recommendations to address your unique storage requirements.
- Get Pure recommended practices to Identity any gaps in your data storage plan.
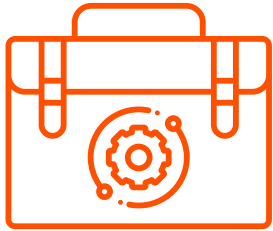

DATA SHEET

Assessment and Optimization Workshop

Quickly realize the full potential of your data transformation with a focused analysis of your storage environment.

IT stakeholders face ongoing challenges in managing the rapid growth of structured and unstructured data in their environments. Data visibility and a deep understanding of data usage in your storage environment allow you to make informed storage and data management decisions in either Standard or Flex consumption models.

The End-user Experience

Pure Services helps you realize the value of your IT investments. Our Assessment and Optimization Workshop helps you understand your current data storage environment and configure to maximize performance. This is a full infrastructure discovery and analysis service designed to provide to provide the information you need to make informed decisions. Our goal is to uncomplicate how your IT team works to manage your Pure data services.

These services provide the following outcomes:

- Storage usage and growth forecasting
- Reduction in total cost of ownership and maximizing return on investment
- Lowered risk, optimized performance, and business continuity
- Accelerated technology adoption to increase agility
- Revised business and operational process to increase efficiency
- Automated solutions to reduce management overhead

Pure Storage Assessment and Optimization Workshop

The Pure Storage Assessment and Optimization Workshop service is designed for organizations that want to evaluate their storage environment to provide the necessary information and analysis to make informed decisions. As part of the project plan, the workshop includes following three deliverables:

- **Discovery and Readiness Assessment**: Understand your goals, complete site survey, and identify tools.
- **Analysis**: Run necessary tools to gather data and analyze current storage environment review reports, identify gaps and make recommendations for remediation.
- **Project closeout**: Review to confirm that all project deliverables were completed as planned.

How to Order

For ordering information contact your local Pure sales representative or visit www.purestorage.com. The Assessment and Optimization Workshop is available as a fixed-price service valid for a single-site engagement covering up to 10 storage arrays from Dell EMC, Hewlett-Packard Enterprise, Hitachi Vantara, IBM and NetApp. In addition, Pure can tailor an advanced service to fit your specific needs. Please contact your local Pure sales representative for more details on supported arrays.

Service Offering	Service SKU	Description
Standard Assessment and Optimization Workshop	PS-ASSESSMENT-AND-OPTIMIZATION-WORKSHOP-STANDARD	Use Case Fixed service, single site up to 10 arrays for block storage arrays
Advanced Assessment and Optimization Workshop	PS-ASSESSMENT-AND-OPTIMIZATION-WORKSHOP-ADVANCED	Use Case Custom priced service; may include additional scoped items for assessment

Companion Service to Assessment and Optimization Workshop

To further enhance and accelerate your Assessment and Optimization Workshop experience, Pure recommends either of the following two services:

- PS-FA-OPERATIONAL-READINESS-ADVANCED
- PS-FB-OPERATIONAL-READINESS-ADVANCED

About Pure Services
