# Veeam and Pure Storage Advisory Workshop

Optimize your Veeam environment on Pure Storage®

### Highlights

- Veeam and Pure Storage Advisory Workshop ensures your optimal performance of your environment.

### Flexibility

- Collaborate with the Pure Storage services team to schedule the workshop when it benefits your strategic decision making.

### Outcomes

- Have a guided conversation detailing best practices when using Veeam and Pure Storage.

Backup repositories using Pure Storage arrays are an excellent choice for Veeam Backup & Replication due to ease of management and all-flash performance. Veeam and Pure Storage partner to drive application availability and application performance. FlashArray™ is integrated with Veeam's Universal Storage API (USAPI) to provide seamless snapshot management. Additionally, both FlashBlade® and FlashArray//C™ have been validated as storage targets for Veeam, enabling fast and rapid restore and ransomware mitigation.

Work with Pure Services to ensure your Veeam environment is configured correctly and optimally on Pure Storage solutions based on best practice.

### The End-user Experience: Workshop Value

Advisory Services from Pure Storage help you realize the value of your IT investments. The Workshop is an opportunity for Pure to understand your integration needs and policy adherence challenges and provide your team with the understanding of how a Veeam Pure integrated environment supports your goals.

## How We Help Get You Started

As an integral part of the Pure Customer Experience (CX) team, our Professional Services subject matter experts will guide the workshop topics around:

- Veeam architecture, components, and features
- Configuration best practices for integrating Veeam with your Pure Storage environment
- Backup options
- Review of Veeam Options such as Instant VM recover, Veeam DataLab, SureBackup, SecureRestore
