

# 3 Ways FlashStack<sup>®</sup> as-a-Service Makes Going Modern Cost-Effective and Easy

Struggling to align storage and compute costs with actual usage?  
FlashStack as-a-Service changes everything.

75%

of enterprises were expected to recognize the benefits of “as-a-Service” consumption by 2021.<sup>1</sup>

3x

increase in demand for on-premises infrastructure as a service (IaaS) predicted by 2024.<sup>1</sup>

50%

of data infrastructure is expected to be consumed or operated as a service by 2024.<sup>1</sup>

## 1 Simple

- Easy to acquire and support
- Effortlessly and selectively add capacity
- Continuous metering and monitoring
- One subscription, with one bill, for the full stack

## 2 Agile

- Continuous right-scaling for on-premises and hybrid-cloud environments
- Intelligent consumption model that contains costs
- Flexible storage and compute aligns costs with usage
- Non-disruptive upgrades

## 3 Economical

- Eliminates capital expenditures (CAPEX)<sup>2</sup>
- No balance-sheet impact
- Low-risk terms and more flexibility than leasing
- Optimizes resource usage with intelligent analytics software

Take the financial uncertainty out of your digital transformation  
and learn more about the benefits of FlashStack as-a-Service today.
