

Efficient, High-performing Storage as a Service for Higher Education

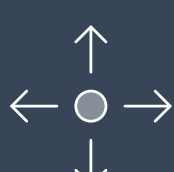

Evergreen//One[™]

One subscription supports everything from containers to converged infrastructure to VDI.

**Higher education institutions—regardless of size—
need extreme adaptability.**

**Students Expect
Lightning-Fast Connectivity
No Matter Where They Are**

**Research Programs Require Robust,
Scalable Infrastructure to Rapidly Collect,
Store, and Analyze Massive Amounts of Data**

**24/7 Uptime and
Optimum Performance
Are Non-negotiable**

Institutions require a modern data storage and management infrastructure that delivers the cost-efficiency and flexibility they need as their IT requirements grow amid tight budgets.

Evergreen//One Offers:

100% OPEX*-based, hybrid-cloud storage as a service for block, file, and object storage.

A single subscription and single set of services—no hardware to buy and no hidden costs.

Pay-per-use pricing—only pay for what you use.

Reserved capacity at a discounted rate.

Non-disruptive storage.

A fully scalable and elastic platform.

Most institutions operate with a lean staff and need solutions that require little management and maintenance with a faster return on investment.

Evergreen//One makes it easy for you to:

- ✓ Mitigate IT staff shortage risk
- ✓ Optimize costs with no long-term commitments
- ✓ Embrace hybrid cloud with Pure Cloud Block Store[™]

Higher education institutions need simple, cost-effective solutions without disruption or downtime.

Evergreen//One offers:

- ✓ Easy to scale subscription
- ✓ Cloud-like experience
- ✓ Rapid innovation—no forklift upgrades
- ✓ No data migrations or costly rebuys
- ✓ Sustainability—ESG ready
- ✓ White-glove premium support

Evergreen//One brings all of this together to uncomplicate your data storage needs—forever.
