

The Top 10 Reasons to Choose Evergreen™//One

Get enterprise-grade, hybrid-cloud storage as a service (STaaS) that is effortless, efficient, and Evergreen:

 Evergreen™ //One

Cloud Economics

01

Consumption-based Storage as a Service

- Pay for actual consumption with minimum commitment.
- Get the storage capacity you need today, and invest the savings into more strategic initiatives.
- Eliminate under-utilization and over payment.
- Enable clarity and simplicity in pricing.

Cost Optimization & Cash Preservation

- Low upfront cost and less forecasting risk.
- Shift to a consumption-based model to preserve cash and meet new accounting standards.
- Get the flexibility to support spikes and seasonal workloads.

02

03

No Balance Sheet Impact

- The only true storage service for private and hybrid clouds that's designed for no balance sheet impact.
- Based solely on service-level agreements, enabling OpEx treatment regardless of term length.
- Assets owned by Pure Storage.

Pay Only for the Data You Use

- Only pay for effective used capacity* (measured daily), not provisioned capacity.
- Clear per unit pricing.
- Align usage with budgets and costs with applications.

04

Cloud Operations

05

Simple Installation, Management, & Operations

- Uncomplicate data storage, forever. Arrange your power and network, and let Pure take care of the rest.
- Metering and monitoring provide a clear view of usage with proactive alerts, notifications, and rate of change tracking to keep the Evergreen//One environment healthy.
- One subscription and one bill to support everything from containers to converged infrastructure to VDI.

Tier 1 Enterprise Performance

- Benefit from Pure all-flash high-performance block, file, object, VVOL, and data protection services.
- Get snapshots, replication, mirroring, metropolitan fail-over, encryption, and more.
- Access comprehensive REST APIs.
- Get resiliency with proven 99.9999% availability from FlashArray™, and always-on QoS.

06

07

Evergreen Architecture Delivers SLA-driven Outcomes

- Non-disruptive and ongoing upgrades and expansions eliminate traditional refreshes and keep your environment SLA compliant.
- Harness rapid innovation in array software, hardware, and media without forklift upgrades.

Cloud Experience

Your Storage Cloud Your Way

- Enable private and hybrid clouds, as a service.
- Leverage Evergreen//One as an "on-ramp" to your public cloud strategy.
- Combine primary storage (via Evergreen//One) with elastic compute from public cloud.
- Access an effortless, efficient, and Evergreen Pure Storage experience.
- Use on-premises, in a co-location facility, or within public cloud for complete hybrid flexibility.
- Experience white-glove premium support that garners a Satmetrix-validated NPS score in the top 1% of B2B companies.

08

09

Flexible & Low Risk

- Access to multiple flexible consumption-based storage plans.
- Stay informed with recommendation-driven AIOps and FinOps.
- Get terms as low as 12 months.

Unified Hybrid Cloud

- Leverage a unified subscription, technology and cloud benefits across on-premises, public cloud and co-location facility deployments.
- Start your cloud journey in any location and move all, or a portion, of your data seamlessly.
- Align application workloads with optimal cloud deployment.

10

Let Us Handle It

We'll take care of your storage needs, while you take care of your business.

Modernize your data center, have the experts deliver data storage services and manage it all using AIOps.
