

SOLUTION BRIEF

Managed Cloud Services for SAP®

Optimizing SAP Environments with FlashStack™

KEY BENEFITS

- High availability and performance
- Lower TCO and predictable costs
- Minimized risk and rapid ROI
- Industry-leading SLAs

KEY FEATURES

- Highly experienced SAP consultants and Basis teams
- Expert management of SAP upgrades, implementations, maintenance and support
- Risk mitigation and comprehensive compliance requirements including SOX, FISMA, ITAR, HIPAA and more, including simplified SAP disaster recovery solutions
- Scalable solutions that grow with your business, so you only pay for what you need

NTT Managed Services is an SAP-certified provider of cloud and infrastructure, hosting, and SAP HANA operations services. We deliver world-class SAP services for managing, hosting and maintaining enterprise applications on FlashStack converged infrastructure from Cisco and Pure Storage®. Our long-established history of ITIL procedures has resulted in the highest ratings possible from SOC 1, 2 and 3, and SAP certification auditors. With over 1,800 instances of SAP under management, we have an extensive portfolio and track record of success – delivering insights, expertise and exceptional services to enterprises worldwide.

CAPTURING TODAY'S VALUE AND PROTECTING THE FUTURE

Secure, fast and optimal enterprise application performance is crucial to maintaining a competitive advantage. Processes are becoming more integrated, yielding powerful business insights and increasing the need for reliable application hosting and managed services. Optimal performance, security and high availability are paramount to the success of any business.

Whether an organization seeks SAP hosting, SAP HANA services, operational management of SAP applications or a remote SAP Basis services team, NTT delivers customized solutions to effectively align business and technology requirements. Our SAP hosting and managed application services are designed to simplify and secure enterprise applications across the organization.

SAP HOSTING: DELIVERING A COMPREHENSIVE PORTFOLIO

We are dedicated to continuously enhancing the value of our solutions and services. We deliver world-class SAP outsourcing services for managing, hosting and maintaining enterprise applications. With a large percentage of our global clients running SAP, we have extensive experience helping companies improve the speed, agility, reliability and security of their critical business applications.

Our SAP Basis team and the next-generation FlashStack infrastructure provide the performance necessary to stay agile in today's rapidly changing business environment. And our strategic partnerships with Cisco and Pure Storage, as well as with leading system integrators, complement our managed cloud and application services.

A TRUSTED PARTNERSHIP

NTT is much more than a hosting and managed cloud vendor. We partner with our clients for mutual success over the long term. Our aim is to help make our clients successful, enabling them to effectively solve their most critical business challenges. We accomplish this by listening to customers, innovating on their behalf, and delivering predictable value.

We have standardized on FlashStack converged infrastructure from Pure Storage and Cisco Systems because it deploys with the simplicity of an SAP appliance but offers the power and scalability to run the most demanding SAP environments.

FlashStack is designed to increase IT responsiveness while reducing the overall cost of computing.
