

# PURE STORAGE DATA PLATFORM FOR MEDITECH EHR

All leading EHRs can run on Pure Storage today

Pure Storage data platform powers over 4000 customers globally

“

6:1 data reduction for MEDITECH database.

Inland Northwest Health Services

“

We replaced two vendor SANs with a single Pure array, and we are very happy with it.

Salinas Valley Memorial Healthcare System

## HERE'S HOW ST. LUKE'S HOSPITAL LEVERAGED FLASHARRAY AND MEDITECH EHR TO ACHIEVE 234% ROI

### Expectation

Reduce Costs. Increase Efficiency. Decrease Latency. Avoid Disruptions. Increase Security.

### Solution

Pure Storage FlashArray Storage for St. Luke's VDI, running on MEDITECH EHR.

### Result

- Total benefits associated with VDI: \$1,791,928
- Total minutes saved across VDI users per day 16,900
- Sub-millisecond latency: Up to 10X faster than legacy storage
- 0 unplanned downtime
- At-rest encryption of patient data with no performance degradation

## FLASHARRAY AND FLASHSTACK – PERFECT MATCH FOR MEDITECH EHR

**FLASHARRAY: EFFORTLESS. EFFICIENT. EVERGREEN™.**

Non-disruptive hardware and software maintenance/upgrade with 99.9999% uptime

Ease of use, requires just 2-hour training

Reduced costs with lower floor space and cooling requirements

Flat maintenance renewal fees that include controller upgrades every three years with Evergreen™

**FLASHSTACK: SCALE WITH ZERO COMPROMISE**

- An all-in-one converged infrastructure solution for ITaaS environment
- Effortless configuration with FlashArray
- Supports Cisco UCS deployments
- Data center scalability with FlashStack™ from 2 hosts and 5.5 TB to 160+ hosts and 1.5+ PB
