PURESTORAGE

SIMPLE, AFFORDABLE ALL-FLASH STORAGE FOR LOCAL GOVERNMENTS.

Store public data securely, deploy personalized services rapidly.

Constituents in communities everywhere are seeking greater access to online services and information. The resulting expansion of public and private data has created unprecedented challenges for budget and time-strapped IT teams.

Is your storage technology doing what it can to meet this growing demand for community services? Or is it doing all it can just to keep up? Pure Storage understands the challenges you face—and why traditional disk-based storage solutions will not solve them.

Use this guide as a quick reference to the real-world benefits of the **Pure Storage FlashArray**.

To learn more visit **purestorage.com** or call **(800) 379-PURE** to discuss the unique needs of your city or county government.

⊘ PURE FACT:

A county in Michigan deploys Pure Storage for 55% cost savings and 8:1 data reduction.

PURE IS STORAGE FOR BIG CITIES AND SMALL TOWNS

Pure Storage FlashArray assures the continuous availability of online services—regardless of the size of your community—while reducing operational costs and simplifying IT:
- **Protect your constituents** by ensuring ready access to vital services
- **Save time and effort** to maximize existing technology investments
- **Maintain secure performance** to protect the privacy of citizen data

STORAGE MADE SIMPLE

Contract Vehicles include:

- NASPO ValuePoint (formerly WSCA)
- DIR
- CMAS

The 3 ways Pure Storage FlashArray helps local governments thrive.

SIMPLIFIES IT with storage that drives improved availability of online services:

- 99.999% availability ensures 24/7-access to public services
- Simplicity and ease of management allows for greater innovation
- Controller upgrades included in maintenance every 3 years
- Ongoing maintenance and support for all components, including flash
- Eliminates the need for downtime and forklift upgrades

ACCELERATES access to (and delivery of) IT services through high performance future-proof storage:

- All-Flash storage delivers a dramatic improvement in application performance over disk
- Responsiveness helps local governments meet project timelines
- Enables the launch of apps from a single, powerful storage platform
- Future-proof *Forever Flash* program eliminates forklift upgrades
- Non-disruptive performance helps ensure compliance

REDUCES the costs and complexity of IT processes with a significantly smaller storage footprint:

- 5-10x more efficient than disk, and with lower power requirements
- Reduces overhead without compromising quality-of-services
- Fewer data migrations means lower risk of lost data
- Unparalleled support helps IT teams solve challenges quickly

LOCAL GOVERNMENTS THRIVE AND ANALYSTS RECOGNIZE: Pure Storage has earned praise from of a growing number of thriving local governments, and 'Leader' recognition from the 2015 Gartner Magic Quadrant for Solid-State Arrays for the second consecutive year.

Learn how local governments can accelerate storage performance while decreasing costs and complexity. Visit **purestorage.com** or call **(800) 379-PURE** to discuss the unique storage needs of your agency.
